Buschman annotates more than 550 books and periodical titles published on the techniques and history of handweaving from 1928 through October 1989. She includes works on how to weave, basic weaving texts, books on looms and equipment, and patterns both for weaving and for woven articles; handweaving history and historic fabrics from around the world; works on Native American weaving, ranging from the Chilkats of the Northwest coast of North America, to the Pueblos and Navajos of our Southwest, Mexico, and Central America, and on through the rich weaving culture of the Andes; reference works containing specialized bibliographies and information on fibers, dyes, education and marketing; and periodicals. With author, title, and subject indexes.

The purpose of this book is to fill a void. There has never been a comprehensive work in English that included several types of double harness looms and their operation. Rather than a collection of projects and patterns, this book is meant as a guide to either acquiring a drawloom or modifying an existing loom to do double harness patterns when desired. The section on designing is meant to provide weavers with tools to create interesting textiles on their own.

This comprehensive "natural history" of a traditional art form honors more than a hundred contemporary Finnish American rag rug weavers and loom builders, whom the author has met and interviewed during more than two decades of research, mostly in Michigan's western Upper Peninsula. As in the classic Finnish American rag rug, Lockwood weaves a colorful yet subdued, artfully lasting, and deeply symbolic tribute that reclaims remnants of past Michigan Traditional Arts Program productions in a fresh composition that will appeal to rag rug artisans, Finns and Finnish Americans, scholars, and a broad public alike. Janet C. Gilmore, Independent Folklorist & Professor, University of Wisconsin-Madison --

Put aside those preconceptions of dusty, medieval tapestries hanging on castle walls! Tapestry weaving has a whole new look, and fiber enthusiasts of all levels are eager to try their hand at creating images with yarn. Rebecca Mezzoff, a renowned teacher of contemporary tapestry weaving, shares her techniques in this in-depth guide to every aspect of the process, from developing a color palette to selecting yarn, warping the loom, and weaving the image. Crafters can choose from inexpensive tabletop and hand-held looms to larger floor looms. Detailed step-by-step photos and inspiring examples from a range of weaver-artists make this a one-stop resource for tapestry weaving how-to.

The history, legacy, and boundless creativity of weavers over the centuries is the base in this helpful guide for both new weavers and seasoned tapestry artists. Tapestry weaving is an art form that has been around since 5000 BCE, and these instructions from renowned artist Jean Pierre Larochette offer 30 traditional techniques built upon weavers' centuries of work. A third-generation French Aubusson tapestry weaver, he gives us a glimpse into the multiple combinations, variations, and applications of techniques that form the art of the weaver. Each technique is exemplified by diagrams, woven models, and examples of possible ways of applying it. Expert Yadin Larochette shares theories and approaches to conservation, including new scientific research to help in the much-needed task of preserving these treasures of human creativity for centuries to come. Along with distilling traditional information on the art, this book's precise written instructions and clear visuals--together with its handy lay-flat binding--assist you in both creating and preserving your tapestries.
