Fascinating accounts of the lives and accomplishments of history's greatest mathematical minds, from Pythagoras to Georg Cantor. Muir also provides charming anecdotes about Descartes, Euler, Pascal, and many others, as well as accessible discussions of their contributions to mathematical thought. 30 diagrams. Bibliography.

Ten years old I fell in love. Ten years was the price of that love. Ten years later our world's re-collide. My brother, Jonah, was possessive when it came to the things he owned. This unfortunately included the people in his life. The forbidden love between his best friend and me was just that... forbidden. Our families were from different walks of life, and as a sheriff's daughter, being with a Moore's kid

would never be tolerated. To my parents, their son and Dalton Moore were on different paths, and their friendship would end as soon as college began, but it was my brother who had a craving for trouble. He was always looking for danger, committing petty crimes and getting away with it because Dalton would take the fall, blackening his already stained name. When Jonah found out we broke the rules by loving each other, his actions impacted us all causing immeasurable suffering. Betrayal comes with a debt, and it would be paid by all of us. One with their heart, one with their mind, and one would pay in blood.

This book is designed to guide you toward making the empowering personal choices that lead to greater fulfillment within any aspect of life. By living more consciously, you may begin to tap into your greatest potential for creating more love, joy, peace, and abundance. Organized within the seven steps of the "Empower Model," this book offers you the practical wisdom and tools to live More Consciously and Empowered! To live "consciously," is to live in present moment awareness, while aligning with higher principles. To be "empowered" means to live within the strength that supports us in choosing to honor ourselves and others in all situations. This is possible for all people, yet it takes more than wishful thinking, and it cannot be provided by anyone else. What is required is an incremental shift from within; the on-going practice of personal and

spiritual growth and healing. This will take great courage, honesty, accountability, and the intention of living your life to its greatest potential. ARE YOU READY to live your highest purpose and potential?

Data is fundamental to the modern world. From economic development, to healthcare, to education and public policy, we rely on numbers to allocate resources and make crucial decisions. But because so much data fails to take into account gender, because it treats men as the default and women as atypical, bias and discrimination are baked into our systems. And women pay tremendous costs for this bias, in time, money, and often with their lives. Celebrated feminist advocate Caroline Criado Perez investigates shocking root cause of gender inequality and research in

the law of signs, given to us by Greek mathematician Diophantus. The narration explores further the two mathematical systems, real vs. veritable: journeying into points about negative roots and powers, significance of signs in addition and subtraction and even how the systems measure up to the basic laws of arithmetic. Sir William Rowan Hamilton is also shared within The Nature of Negative Numbers, as Peter states what mathematician Sir William learned during his own experiments with the systems.
